

Dear West St. Paul School Families,

We are having a school-wide Pajama day on Tuesday, December 14th, which also corresponds with the Covid-19 Vaccination Clinic that Manitoba Public Health is conducting here in our gym. Students in K-5 may also bring along one stuffed animal that day, if they would like to.

We wanted to share with you that we are finding that there are more and more sites that we go to with our students that require them to be double-vaccinated for Covid-19 in order to enter. Arenas, sports clubs, museums, the Zoo and more are all requiring vaccination. We feel fortunate that WRHA will be helping families with vaccinations this week at our school.

Our school community continues to support the "Be A Santa To A Senior" program at Middlechurch Home. We will once again be collecting monetary donations from December 13th to 17th. Donations will be used to purchase gifts for those residents who would not receive any gifts this holiday season.

We are passing along a big thank you from Middlechurch Home for your previous support and for your generosity this year. Further to this, they have gifted each student with a disposable holiday mask that will be sent home next week.

Also, as a reminder, masks do get wet in the wintertime, with students heading outside, so we ask that you please send along additional masks for your child to change into, as needed.

Thanks so much for the hamper donations that we have already received. We will be collecting them until Tuesday, December 14th.

Thanks for all of your continued support!

Take care and we hope you have a great weekend!

- David Ingram and Jenny Macdonald -
