Dear Parents / Guardians:

Re: COVID-19 Update

Today Manitoba's Chief Medical Health Officer Dr. Brent Roussin moved Winnipeg to Red (critical) restrictions in recognition of the level of COVID-19 infections in our city.

However, there will be no further restrictions placed on our schools beyond what was previously announced. He stated that there is no evidence of infections spreading in schools and that the measures in place in schools are working. Please consult our website for details of the measures we have in place.

The one change that will affect our schools is the closure of recreation facilities. This will require that we pause skating, swimming, soccer and hockey programming for now. It is possible that our local rinks obtain an exemption for school programming in which case skating and hockey can continue.

We are immensely grateful to our staff for their dedication and hard work in keeping our children safe and keeping them learning.

Please do whatever you can to keep yourselves and your loved ones safe. Thank you for your cooperation.

Sincerely,

Brian P. O'Leary
Superintendent
